100 Series

SecurOS® Client Workstations

Dedicated SecurOS® Client Workstations	Intel® Core™ 14th Generation Processors	M.2 NVMe SSD OS Drive	16GB DDR5 RAM	NVIDIA® Graphics Card for Video Decompression	2 Supported Form Factors: SFF and Tower	Windows 11 Pro

Provides Scalable, Secure, and Robust platforms for end-to-end security solutions.

ISS is a leading provider of intelligent video management systems and native AI video analytic processing that provides scalable, secure, and robust platforms for end-to-end security solutions. The 100 Series Client Workstations work seamlessly with the industry leading SecurOS® Platform.

The SecurOS® 100 Series Client Workstations deliver performance at an affordable price. Equipped with the latest Intel® 14th Generation Core™ i7 processors, which provide up to 30% more computing potential than previous generations, these efficient workstations can power through any task. The workstations offer GPU computing with a NVIDIA® graphics card for high-end video processing. Also featuring fast start up and application loading enabled by a dedicated 256GB M.2 NVMe SSD OS Drive.

Best in class components with a warranty to match, the SecurOS® Client Workstations are designed to give you the power you need with the performance you can rely on. ISS tests, tunes, and guarantees that each workstation endures the toughest installations.

Enterprise Video & Analytics Servers Designed for Your Security and Business Needs.
